...reclaiming our agricultural heritage!

SEED *the* FUTURE

EMPOWERING YOUTHS FOR AGRICULTURAL REVOLUTION

WE NEED YOU!

Join us in our AGRICULTURAL REVOLUTION vision to empower youths for a prosperous future

INTRODUCTION

The unemployment rate in Nigeria is a cause for concern, particularly because many young graduate are struggling to secure a job, with each passing year, more graduates enter the job market. But here is the wake-up call: relying on white-collar jobs won't solve the crisis.

My late father's words keep echoing in my mind that "Government can not employ everyone; youths need to embrace agriculture." It is true that without a shift towards agriculture, unemployment will skyrocket, poverty will deepen and hunger will ravage the nation.

For this cause we are stepping up. We are launching a foundation to ignite an agricultural revolution in Nigeria, Akanjiiko Memorial Foundation, we want to sensitized, educate, train, equip and empower the youths to embrace agriculture and turn the soil to gold.

We understand that it is not easy for the young people to switch to agriculture without proper training and support. We need to train, mentor, support and empowerment them in order to embrace this new path. That is why we have designed so many programs that will get the youths ready to start business in agriculture and be successful, creating wealth for themselves.

But we can't do is alone, we need your support to turn this vision into reality.

ABOUT US

BACKGROUND AND INSPIRATION

The inspiration for the foundation stems from the wisdom passed down by my late father, Pa Joseph Hossien Akanji, who fervently believed that the youth hold the key to revitalizing Nigeria's agricultural sector. His words, echoing through time, emphasized the pivotal role of young individuals in shaping the future of farming. With this vision in mind, Akanjiiko Memorial Foundation aims to ignite a movement where the youth reclaim their agricultural heritage, contributing to national food security and economic stability, tackling unemployment and creating wealth for themselves.

My father always emphasized on the great achievements made under the leadership of late Chief Obafemi Awolowo through agriculture, during his time, agriculture was the mainstay of Nigeria's economy, contributing significantly to national income, employment, and food security.

Awolowo recognized the pivotal role of agriculture in driving economic development and implemented various policies and initiatives to promote agricultural growth and productivity.
